**APPROVAL** OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.04 cubic feet per second, but not to exceed 1.46 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before August 1, 1996

Proof of completion of work shall be filed before September 1, 1996

Application of water to beneficial use shall be filed on or before August 1, 1999

Proof of the application of water to beneficial use shall be filed on or before September 1, 1999

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed \_\_\_\_\_

Proof of beneficial use filed \_\_\_\_\_

DENIAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby ~~grant~~ deny the same, subject to the following limitations and conditions:

This application is herewith denied on the grounds that said application does not meet the exemptions as outlined in Amended Order No. 1054. The appropriation of underground water for quasi-municipal and domestic purposes, as applied for, would conflict with and impair existing rights and be detrimental to the public interest and welfare.

Ruling Reversed 6-9-94  
See New Book Record

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....cubic feet per second

- Work must be prosecuted with reasonable diligence and be completed on or before.....
- Proof of completion of work shall be filed before.....
- Application of water to beneficial use shall be filed on or before.....
- Proof of the application of water to beneficial use shall be filed on or before.....
- Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed.....  
Proof of beneficial use filed.....  
Cultural map filed.....  
Certificate No.....Issued.....

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,  
State Engineer of Nevada, have hereunto set my hand and the seal of my
